ALCOHOL			
<b>ALCOHOL IMPAIRMENT CHART (BAC CHART)</b>			
	This pocket size chart is an alternate method of calculating the approximate blood alcohol content (BAC) level of impairment by weight and drink. There is no blood alcohol calculator that is 100% accurate due to the number of factors regarding the consumption and reduction (burn off) rates of different people. This chart includes the sex (male/female) of the drinker, drinking frequency, and elapsed time. This is a rough estimation of the BAC based on the number of drinks.	Chart 3" x 3"	
<b>ARRIVE ALIVE! YOU DRINK AND DRIVE. YOU LOSE. POSTERS</b>			
	You Drink And Drive. You Lose. (Blue) (8 1/2" x 11")	Poster	
	You Drink And Drive. You Lose. (Pink) (8 1/2" x 11")	Poster	
<b>excuses</b>			
	Impaired driving starts with the first drink. Your ability to make good decisions can be affected – which means you are the last person who should decide if you're okay to drive. So don't make excuses. © 2010 FACE, 1-888-822-3223, <a href="http://www.faceproject.org">www.faceproject.org</a>	Bookmark	
<b>DESIGNATED DOG</b>			
	Going out on the town? Be safe – if you drink, have one of your loyal companions drive. Image of 4 dogs in a convertible. Target audience: adult males. © 2001 FACE, 1-888-822-3223, <a href="http://www.faceproject.org">www.faceproject.org</a>	Bookmark	
<b>DRIVING UNDER THE INFLUENCE: A CRASH COURSE</b>			
	This 8-panel pamphlet explains what BAC is, how long it takes the body to process and eliminate alcohol, the effects of marijuana on driving, and includes national and Nebraska specific statistics on impaired driving. THE UNSAFE DRIVING ACTS OF MOTORISTS IN THE VICINITY OF LARGE TRUCKS		Type	Quantity
	17 minutes 2006 teens/adults DVD Experts reported that the condition most common in collisions involving passenger vehicles and large trucks is motorists' unfamiliarity with the performance, limitations, and capabilities of large trucks. It appears that most drivers are unaware of the limited acceleration, braking, and visibility of large trucks and of the relationship between mass and velocity and the potential consequences of that relationship to safety. Particularly distressing to truck drivers is when a motorist passes a large truck, quickly cuts in front of it, and then exits the highway.	DVD	One
